

Alvarado's Model DM curved corner guards provide high-impact protection for refrigerated cases and other retail fixtures.

Model DM corner guards are suitable for applications that require the high pullout rating of fixed-anchored steel case protectors.

The DM's unique design provides tight-radius corner protection, with a 180 degree curved protection plate and V-cut interior mounting base. These features allow the

DM to be installed in closer proximity to cases/fixtures that you wish to protect.

Constructed from heavy gauge steel, Alvarado's DM corner guards use two expansion anchors for secure installation. Anchor package is included.

The DM is available in a height of 24".

DM corner guards are available with a durable black powder coat finish.
