DM and CRI Corner Guards

The DM and CRI corner guards prevent damage to expensive store fixtures, cases and EAS equipment. The products are permanently installed using floor anchors.

Product Features

- Durable; suitable for high impact areas
- Tight radius and V-cut interior mounting base (DM)
- Anchoring hardware included

Finish and Sizes - CRI

- Available in 12", 16" and 24" heights
- Heavy 7-gauge steel
- Bright chrome finish

Finish and Sizes - DM

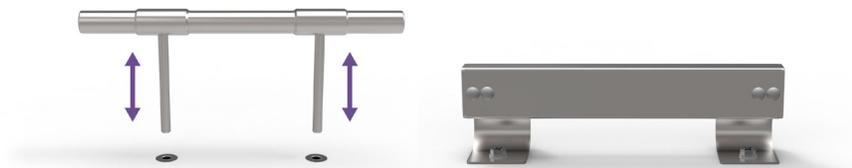

- Available in 24" height
- Heavy 7-gauge steel
- Black gloss powder coat finish

Compact Design

The small installation footprint of the DM and CRI allows the corner guards to be installed close to fixtures, which minimizes trip hazards.

Complementary Products

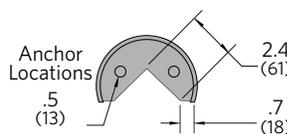

Alvarado's SSB removable floor bumper and CB fixed floor bumper rails protect walls, refrigeration units and other fixtures from impact damage. Both models come in sections that install easily and can be joined together to create seamless runs.
