

MT, GST, W Turnstiles

Alvarado's line of stylish and affordable entry turnstiles control pedestrian traffic flow and aid in reducing theft in retail applications

MT (pictured) and GST turnstiles are four arm turnstiles which can be configured to operate in both clockwise and counter-clockwise directions.

W turnstiles are ideal for applications that have limited floor space. The W is a three arm turnstile and is ordered in left hand or right hand operation.

All of our turnstiles can be used in conjunction with Alvarado's modular post and rail or pedestrian gates.

Typical Installation Sites

- Retail and specialty stores
- Grocery and warehouse stores
- Home improvement centers

Why Alvarado?

Alvarado is America's leading entry control products manufacturer. Founded in 1956, Alvarado turnstiles and gates are installed in thousands of locations throughout the world.

Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.
