

ULTRA Q PEDESTAL

The UltraQ Portable Pedestal allows users to self-scan credentials to enter a facility. Battery powered and Wi-Fi enabled, the UltraQ pedestal is easy to move and intuitive to use.

Benefits:

- Allows guests to self-scan printed and mobile access credentials
- Frees ticket takers to perform valuable customer service functions
- Fast and reliable validation in indoor and select outdoor environments
- Battery powered / Wi-Fi communication
- Portable and easy to move

Features:

- 
Media Validation Validates all types of credentials including 1D/2D printed & digital (mobile phone) barcodes, RFID, Apple and Google NFC digital wallet smart tickets; option to add other readers such as biometric
- 
Fast Entry Throughput Highly responsive validation – can accommodate up to 30 validations per minute
- 
Bright TFT Display Color display provides customizable visual instructions for guests; a touchscreen interface allows operator to access administrator functions
- 
Attendant Notification LED lights on the rear of the device notify attendants of presented credential status (valid / invalid) and identifies when special tickets are presented
- 
Custom Graphics / Audio Allows customized screen graphics and sound files to be associated with presented credential status
- 
Custom Lighting Highly visible LED's provide notification of presented credential status; during non-scanning times, LED's provide color transitions or solid illumination in any RGB color
- 
Bi-Directional Entry / Exit UltraQ scan head supports switching between entry and exit configurations, allowing the same pedestal to support either entry or exit validation
- 
Server Communication Wireless or optional wired LAN communication (Dual-band 802.11ac 2X2 MU-MIMO)

UltraQ: A Great Guest Experience

The UltraQ Portable Pedestal provides barrier-free access control, allowing guests to self-validate entry credentials at sports and entertainment venues. With approximately 12 hours of continuous operation on a single battery charge, paired with a uniquely designed removable dolly and easy-grip handle, the UltraQ provides true portable and wireless access control.

Common Applications

- Guest self-validation of access credentials
- Indoor or outdoor facility access
- Temporary access points
- Exclusive / VIP area access

Typical Installation Sites

- Performing arts centers
- Stadiums and arenas
- Temporary events (i.e. festivals, conventions)

Available Options

Over a dozen available options, including:

- Variety of powder coated colors
- Canopy cover
- Removable dolly for easy deployment

Ticketing System Integration

The UltraQ Portable Pedestal works seamlessly with GateLink10—our widely used admission control software.

We also offer DirectConnect API, which can communicate directly with third-party systems.

GateUtility

As an added benefit, the UltraQ Portable Pedestal and all intelligent admission products from Alvarado™ come with GateUtility (GU). This browser-based application provides remote control of all Alvarado devices installed within a facility. For example, using any browser accessible device, GU allows the facility to:

- Change screen graphics and sound files
- Update software and device configurations
- Restart devices
