protecting assets and controlling the flow of people

DM
Fixed Corner Guard

Technical Specifications

Dimensions	Unit Height:	24” (610mm)
	Unit Width:	5“ (127mm)
	Unit Depth:	3.25” (83mm)
Function	The DM is a fixed corner guard designed to provide case and fixture protection.	
Materials	Corner Guard	The DM consists of a rolled and fabricated protective plate made from 7-gauge steel with an interior base flange welded to the rolled assembly. The corners have a 0.25” radius and edges are deburred. The interior base follows the radius of the protective plate on the inside and has a “V” cut on the alternate side to allow for close mounting to case or fixture. Mounting holes are provided on the base flange.
	Anchor Package	The package consists of two (2) each 0.38” – 16 x 3” wedge anchors, consisting of a threaded stud with an integral cone expander and a single piece expansion clip.
Available Finishes	Powder Coat	All external materials are powder coated with a glossy black finish.
Weight	Approximately 24 lbs. (10.89 kg)	
Shipping Details	DM Corner Guards are shipped with anchor hardware to mount the unit to a standard, level concrete floor. Alvarado ships product throughout the world.	
Installation Details	DM Corner Guard must be installed on level concrete. Installation should be performed by a skilled installer following the manufacturer’s instructions (included).	
Warranty	Alvarado Manufacturing Co., Inc. warrants the DM Corner Guard from defects in material or workmanship, for the period of one (1) year from the date of shipment. Complete details of the warranty are available from Alvarado by request.
