SSB Floor Bumper

Alvarado's SSB removable floor bumper protects walls, refrigeration units and other fixtures from impact damage. The SSB is often used in grocery stores, retail stores and store backroom areas.

Product Features

- Removable for easy floor cleaning
- Individual sections connect to create seamless runs

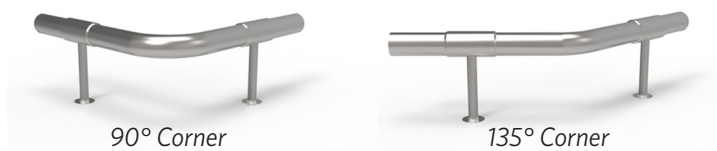

Material and Finish

- 16-gauge, stainless steel tubing
- #4 satin finish

Available Lengths

The SSB is available in individual sections from 1' to 12'. Additional sections and corners can be added to create longer runs along walls, cases, and windows.

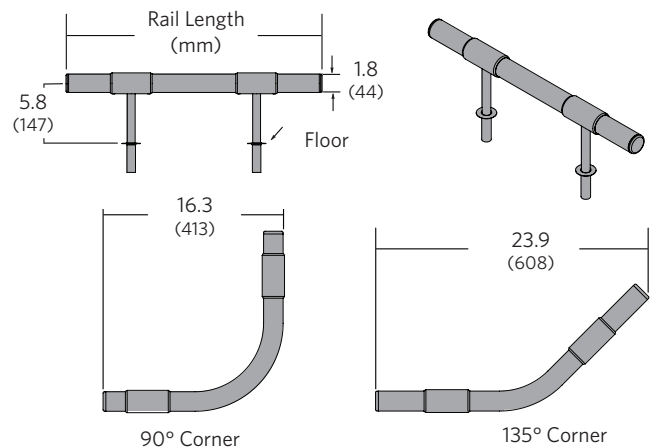

Compact Design

The SSB can be installed close to walls and fixtures, minimizing trip hazards.
