EDC-BN

ALVARADO
protecting assets and controlling the flow of people

Alvarado waist high turnstiles provide highly reliable bi-directional access control, crowd control and patron counting. Our turnstiles are installed in thousands of secured facilities, stadiums, arenas, schools and metros worldwide.

The EDC-BN is a rugged, multi-purpose, turnstile that can be used to provide bi-directional access control, to direct pedestrians, and / or count attendance. The EDC-BN has an attractive rounded end “bullnose” cabinet.

COMMON APPLICATIONS

- Employee and Visitor Access Control
- Pedestrian Traffic Flow Control
- Patron Counting

*Extended Bullnose Shown

Why Alvarado?

Alvarado is the leading manufacturer of waist high turnstiles. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world.

Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world’s most respected companies use our products again and again.

ALVARADO

model EDC-BN WAIST HIGH TURNSTILES

KEY FEATURES	BENEFITS
Full Featured Control Board / Bi-Directional Access Control (electric models)	Works with access control systems or push buttons without added relays, electronics or programming for **a simplified integration.**
Heavy Duty Mechanism	Stainless steel internal cast parts and high quality bearings provide **years of reliable service.**
Smooth Arm Rotation	Hydraulically dampened arm rotation smoothly returns arms to home position after each rotation **providing safe and reliable passage.**
Key Override Control	Ability to unlock one or both directions provides an accessible manual lock control for **a more flexible product.**
Hidden Anchoring / No Exposed Fasteners	No visible fasteners means a better looking turnstile and a **better looking installation.**
