protecting assets and controlling the flow of people

Space Saver Post

Technical Specifications

Dimensions	Unit Height:	35” (889mm)
	Base Width:	3.5” (89mm)
Function	Space Saver Posts are designed for case protection applications and for use with Alvarado railing systems to provide security and pedestrian control.	
Materials	Space Saver Post	The post is a 2.25” OD tube made from 16-gauge steel with a 3.5” diameter flange welded at the base. A base cover and post cap is included with each post.
	Anchor Package	The anchoring package includes a base cover, post cap and 0.63” OD x 36.75” anchor bolt that extends down the interior of the post to connect to one (1) 2.75” long x 1” diameter double-expansion anchor which gives the post more rigidity for protection.
Available Finishes	Chrome Plated	All external fabricated materials are plated with a bright chrome finish.
	Stainless Steel	All external materials are fabricated from stainless steel and polished to a mirror (#8) finish. Only available for Space Saver SSP Post.
Weight	Approximately 8 lbs. (3.63 kg).	
Shipping Details	Space Saver Posts are shipped ready for installation. Alvarado ships product throughout the world.	
Installation Details	All Space Saver Posts must be installed on level concrete. Installation should be performed by a skilled installer following the manufacturer’s instructions (included).	

Options

Rail Outlets
Factory installed outlets accept 1.75” OD Horizontal Rails. (Rails sold separately)

Horizontal Rails
1.75” OD Rails made form 16-gauge steel tubes are available in various lengths.

Post Bumper Guard
The solid neoprene PBG wheel attaches to any 2.25” OD post to safeguard posts and equipment from impact damage. The PBG wheel has a 5.5” OD.

Warranty Alvarado Manufacturing Co., Inc. warrants the Space Saver Post from defects in material or workmanship, for the period of one (1) year from the date of shipment. Complete details of the warranty are available from Alvarado by request.
