

# POSTS & BOLLARDS

Alvarado posts and bollards are an excellent choice for protecting front of store, backroom and warehouse assets. Alvarado offers a full line of fixed or removable posts as well as bollards for heavy duty protection.

**Vogue** and **Space Saver** posts are the industry standard in posts, offering a 2.25" diameter.

For applications that require a wider impact area, **C** and **FSB** posts feature a 3" diameter.

**LS Removable** posts can be quickly removed for easy floor cleaning or to provide aisle passage, and come in a 2" diameter.

**DSB** and **Core Drilled** bollards are available for applications that demand heavy duty protection. Both bollards are 4.5" in diameter. Core Drilled bollards can be filled with concrete to provide extra reinforcement.

## TYPICAL INSTALLATION SITES

- Warehouses and backrooms
- Retail and specialty stores
- Stadiums and convention centers
- Home Improvement centers

## Why Alvarado?

Alvarado is the leading manufacturer of asset protection products. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world.

Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.
