

# Mobile Entry Pedestal

The IntraQ Portable Pedestal allows users to self-scan credentials to enter a facility. Battery powered and Wi-Fi enabled, the IntraQ pedestal is easy to move and intuitive to use.

## Benefits:

- Allows guests to self-scan printed and mobile access credentials
- Frees ticket takers to perform valuable customer service functions
- Fast and reliable validation in indoor and select outdoor environments
- Battery powered/Wi-Fi communication
- Portable and easy to move
- Available in multiple finish colors

## Features:

-  **Media Validation** . . . . . Validates all types of 1D/2D printed and digital (mobile phone) barcodes, including wristbands; option to add other media readers such as RFID/NFC and magstripe
-  **Fast Throughput** . . . . . Intuitive for guests; highly responsive validation – can accommodate up to 30 validations per minute
-  **Bright TFT Display** . . . . . Color displays provide customizable visual instructions for guests; a touchscreen interface allows operator to access administrator functions
-  **Attendant Notification** . . . . . LED lights on the rear of the device notify attendants of presented credential status
-  **Custom Graphics/Audio** . . . . . Allows customized screen graphics and sound files to be associated with presented credential status
-  **Server Communication** . . . . . TCP/IP based via wireless communication (802.11a,b/n)

### IntraQ: A Great Guest Experience

The IntraQ admission pedestal provides portable, barrier free access control, allowing guests to self-validate entry credentials at sports and entertainment venues. With approximately 12 hours of continuous operation on a single battery charge, and our uniquely designed portable dolly with bracket and handle, the IntraQ provides true mobile access control.

### Common Applications

- Guest self-validation of access credentials
- Indoor or outdoor facility access
- Temporary access points
- Exclusive / VIP area access

### Typical Installation Sites

- Performing Arts Centers
- Stadiums and Arenas
- Temporary Events (i.e. Festivals, Conventions)

### Available Options

Over a dozen available options, including:

- RFID / NFC reader
- Magstripe reader
- Variety of powder coated colors
- Removable dolly for easy deployment

### Ticketing System Integration

The IntraQ Portable Pedestal works seamlessly with Alvarado's widely used GateLink10 admission control software or, using our DirectConnect API, the IntraQ can directly communicate with third-party systems.

### GateUtility

As an added benefit, the IntraQ Portable Pedestal and all of Alvarado's intelligent admission products come with GateUtility (GU). This browser-based application provides remote control of all Alvarado devices installed at a facility. For example, using any browser accessible device, GU allows the facility to:

- Change screen graphics and sound files
- Update software and device configurations
- Restart devices
