Mobile Entry Pedestal

The IntraQ Portable Pedestal allows users to self-scan credentials to enter a facility. Battery powered and Wi-Fi enabled, the IntraQ pedestal is easy to move and intuitive to use.

Benefits:

- Allows guests to self-scan printed and mobile access credentials
- Frees ticket takers to perform valuable customer service functions
- Fast and reliable validation in indoor and select outdoor environments
- Battery powered/Wi-Fi communication
- Portable and easy to move
- Available in multiple finish colors

Features:

Media Validation	Validates all types of 1D/2D printed and digital (mobile phone) barcodes, including wristbands; option to add other media readers such as RFID/NFC and magstripe
Fast Throughput	Intuitive for guests; highly responsive validation – can accommodate up to 30 validations per minute
Bright TFT Display	Color displays provide customizable visual instructions for guests; a touchscreen interface allows operator to access administrator functions
Attendant Notification	LED lights on the rear of the device notify attendants of presented credential status
Custom Graphics/Audio	Allows customized screen graphics and sound files to be associated with presented credential status
Server Communication	TCP/IP based via wireless communication (802.11a,b/n)

IntraQ: A Great Guest Experience

The IntraQ admission pedestal provides portable, barrier free access control, allowing guests to self-validate entry credentials at sports and entertainment venues. With approximately 12 hours of continuous operation on a single battery charge, and our uniquely designed portable dolly with bracket and handle, the IntraQ provides true mobile access control.

Common Applications

- Guest self-validation of access credentials
- Indoor or outdoor facility access
- Temporary access points
- Exclusive / VIP area access

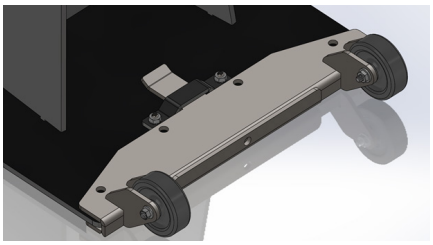

Typical Installation Sites

- Performing Arts Centers
- Stadiums and Arenas
- Temporary Events (i.e. Festivals, Conventions)

Available Options

Over a dozen available options, including:

- RFID / NFC reader
- Magstripe reader
- Variety of powder coated colors
- Removable dolly for easy deployment

Ticketing System Integration

The IntraQ Portable Pedestal works seamlessly with Alvarado's widely used GateLink10 admission control software or, using our DirectConnect API, the IntraQ can directly communicate with third-party systems.

GateUtility

As an added benefit, the IntraQ Portable Pedestal and all of Alvarado's intelligent admission products come with GateUtility (GU). This browser-based application provides remote control of all Alvarado devices installed at a facility. For example, using any browser accessible device, GU allows the facility to:

- Change screen graphics and sound files
- Update software and device configurations
- Restart devices
