IntraQ

Suite Access Scanner

The IntraQ suite scanner is a compact device that validates printed and digital bar coded credentials and unlocks suite doors. The IntraQ suite scanner has a bright TFT color screen that provides guidance to patrons as they self-scan credentials to access suites or other restricted areas.

The intraQ attaches directly to a wall and is powered through the Ethernet connection (PoE).

- Validates Printed and Digital Bar Coded Tickets
- Unlocks Suite Doors
- Power Over Ethernet
- Integrates With Most Ticketing Companies
- Dozens of Available Finish Colors

Why Alvarado?

Alvarado is America's leading provider of access control solutions for sports and entertainment venues. Our intelligent admission devices and access control software continue to power the guest experience at hundreds of venues throughout the world.

Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected venues use our products again and again.
