Integrated High-Speed Printer	–	⊕	⊕	✓	✓	⊕	✓

✓ Included ⊕ Factory prepped for future upgrade – Cannot be upgraded

MATERIALS

HOUSING

The exterior housing is 16-gauge powder coated steel.

PEDESTAL

The pedestal is 14-gauge powder coated steel.

ACCESS CONTROLLER

The IntraQ contains an access controller that communicates to Alvarado's GateLink10 access control software or to third-party access control software through Alvarado's *DirectConnect API*. The access controller provides offline validation if communication to the access control server is not possible. Offline transactions are stored and automatically uploaded to the host when communication is restored.

BARCODE SCANNER

A 1D/2D barcode scanner is internally mounted. The scanner quickly reads both printed and digital barcodes

TFT DISPLAY WITH TOUCHSCREEN

The IntraQ has a 5.7" (diagonal) color touchscreen display. The bright (700 nit) display is visible in bright sunlight. User definable graphics guide patrons through the validation process and provide notification of presented credential status. Advertisements can also be displayed on the screen. Graphics are easily changed using an Alvarado provided utility.

INTERNAL SPEAKER

Audible sounds (.wav files) are typically used to notify patrons of the presented credential status. Sounds are user configurable and are uploaded to one or all devices from a server utility.

BATTERY PACK

The IntraQ pedestal is powered by a lithium-ion battery pack. The battery provides approximately 12 hours of operation time before a charge is required.

ATTENDANT NOTIFICATION LIGHTS

The back of the IntraQ contains an LED light board (Yellow/Green/Red). The lights notify attendants of the status of the presented credential. Unique light combinations can be associated with the select ticket types to provide notification to attendants of special tickets such as "child", "senior" or "VIP".

OPERATION AND INTERFACE

OPERATING MODES

The IntraQ pedestal scanner is used in the following operational modes:

Patron Self-Validation Patron is instructed by screen prompts to scan their credential which is validated by the access control system. If the presented credential is valid, the pedestal plays the associated "valid" sound file and instructs the patron to enter. Lights in the rear of the scan head provide notification of the presented credential status for attendants.

Screen Prompts can be customized by the venue

Attendant Operation and Diagnostics

Logging in via the touchscreen display provides attendants access to various functions, such as information-only ticket lookups, overrides and manual credential input. A diagnostic/configuration menu, also accessed through the touchscreen, allows authorized personnel to make configuration changes and test product functionality.

Interface to Access Control System

IntraQ series products interface to Alvarado's entertainment facility access control system, GateLink10. Alvarado also offers a *DirectConnect API*, which allows third-party systems to integrate directly with our devices through easily implemented web service protocols.

Using Alvarado's GateLink10

Using Alvarado's *DirectConnect API*

AVAILABLE FINISHES

BLACK POWDER COAT

The standard finish is black semi-gloss.

OTHER POWDER COAT COLORS

The IntraQ can also be powder coated in other available colors.

SHIPPING AND SITE PREPERATION

SHIPPING

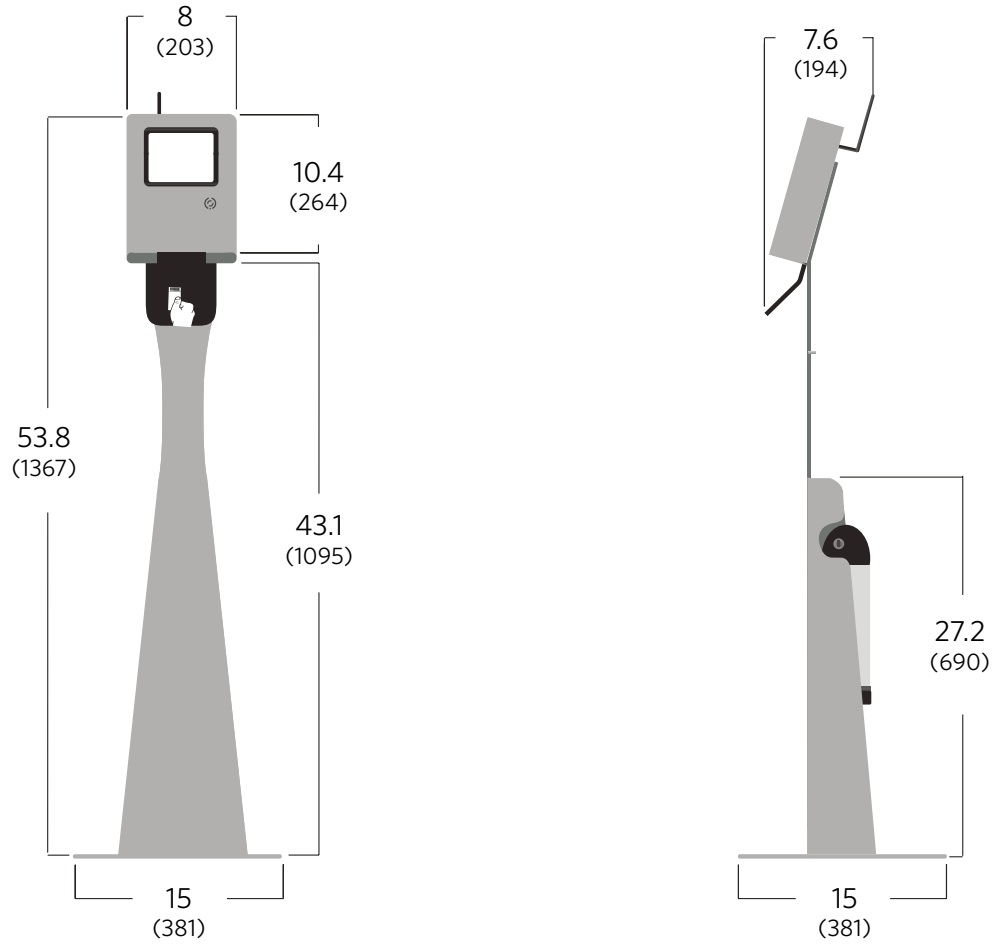

The IntraQ portable pedestal is shipped assembled.

SITE PREPERATION

The IntraQ pedestal is a portable device which does not require installation. Communication to the access control server is via Wi-Fi (802.11a,b/n)

TECHNICAL DIMENSIONS

Dimensions are shown in inches (mm). All measurements are approximate.

Electrical	Description	
Power Requirements	Maximum power consumption during charging is 125W per battery pack.	
Operational Voltage	The devices uses low voltage 12VDC and 5VDC for operation	
On/Off Switch	A recessed on/off switch powers the device on and off	
Weights and Environmental		
Product Weight	60 lbs.	27 kg
Shipping Weight	110 lbs.	50 kg
Operating Temperature	15° to 122° F	-10° to 50° C
Storage Temperature	-30° to 160° F	-34° to 70° C

WARRANTY

For a period of one year from the date of purchase, Alvarado will replace or repair, at Alvarado's option, any products or parts which are defective in materials or workmanship, provided recommended installation and maintenance procedures are followed. This warranty is void if damage is due to improper installation, maintenance or use. This warranty is limited to parts only, and does not cover labor or shipping charges incurred in connection with the removal or replacement of warranted products or parts.

This warranty is expressly made in lieu of any and all other warranties, expressed or implied, including, but not limited to implied warranties of merchantability and fitness for a particular purpose. Alvarado shall not be liable for any loss or damage, directly or indirectly, arising from the use of purchased products. In no event shall Alvarado be liable to buyer for consequential damages, special damages, incidental damages, loss of use, business interruption, loss of profits, or damages of any kind arising out of the use or inability to use a purchased product. In no event shall Alvarado be liable for damages which exceed the purchase price of a covered product.
